10 pearls of advice and blessings from Sage Agathiar for the souls liberating in the ninth circle

Advice number one, the first pearl of advice from Sage Agathiar

Oh souls, who await to get soul liberated, please heed to my first advice. Living on planet Earth is no longer a viable option, so never allow your soul to have another rebirth. I, Agatheesan, is the representative of divine energies. I'm speaking on behalf of the Supreme God and Supreme Shakti.

This is the right time to think about the soul. Think why mankind has reached such a state of being. When humans stop contemplating on the soul and completely involve themselves in worldly illusions or Maya, the toxic energy called 'Kali' thrives in a higher state of energy. That is the only one main reason why mankind suffers in the grasp of Kali - living in a veiled state of being, remaining unaware of the soul, completely immersing oneself in worldly illusions, and having no thoughts about soul liberation or enlightenment or breaking one's cycle of rebirth and finally consuming negative food energy externally and internally, and performing malevolent actions are all what determines the end times of kali yuga.

As an order of natural necessity, the rise in positive energy is followed by a rise in negative energy, and it is a recurring event. But it is imperative that mankind should uphold a virtuous life at all times. Humans performing righteous actions, even during the peak of negative energy are always attracted by the higher divine beings. Humans who perform evil actions, even during the dawn of positive energy times, are sure to destroy their own soul.

As a highly evolved soul, I would like to say a thing in particular to the humans who remain in an immature state by not accepting the helping hand of Gods. It is the Supreme father or Easan who is the father to all the souls. I, Agatheesan, is the connecting bridge and I seek the union of the Supreme father and the souls living in the kali yuga. Having taken the human form, it is my daughter who functions as the guru and helps me in this endeavor.

Get rid of the illusory world and focus all your thoughts into the inner world of the soul within you. Realize the very basic philosophy that it is the Supreme father who exists as a soul within each one of us. Oh, humans who are prepared to take soul liberation very soon, please pay attention to my advice. Ask yourself the question, where is my soul and try to seek the solution. Travel along with me, get liberated, crossover the Karman line or edge of space where gravity ceases. And as you undergo the unison of the Supreme Self and your soul, the realization of the soul within you will help in this unison. As you get to know your soul with the help of the knowledge you gained, realization will also increase. It is imperative to realize your own soul.

Advice number two, the second pearl of advice from Sage Agathiar

Oh, all souls awaiting soul liberation, accept my second pearl of advice. Advice is provided by the known to the unknown. In this way, since I know your past, present, and future, I provide advice which will benefit your future.

Many humans struggle to attain soul liberation. Only those who are soul liberated can explain what would happen after one's demise. Those who cross over death can only realize the secrets of birth. Those who research on why their life exists this way must understand that the cycle of birth and death is the main reason. Any object that is burnt or destroyed will never appear again. But the soul also known as life appears again and again through birth. What is the main reason? Contemplate.

The soul which never destroys is the creation of the Supreme Soul. If only the Supreme Soul desires, can the soul be destroyed. No one else could destroy the soul. Will the Supreme Soul attempt to destroy the souls? Think about it. Are these end times, knowing that human souls will be destroyed? Why do we emphasize on liberating your soul? Why is soul liberation given so much importance? Know the reasons.

The Supreme Soul who created the human souls is a formless, light based energy. The human soul formed this way, is also a light based formless energy. It is the Sun, which is the zenith and epitome of light energy. So the Supreme Soul resides in the core of the Sun. It is only the human souls, through the help of their knowledge, increase their wisdom, and with the help of their spiritual powers, connect the light of their soul with the light from the Supreme Self. The light energy thus received by the human soul from the Supreme Soul should be turned into a light pathway to reach the Supreme Soul. And that should be the purpose of the human life.

It is only the humans living in the end of this Kali yuga, who have veiled and hidden their soul. With a faint light from their soul, they set their pathway towards illusions in the outer world. So the light connection with the Supreme Soul gets disconnected. Souls suffer deeply, since their pathways are changed, as they are unable to reach the Supreme Soul. This is why the soul loses its divine connection and decides to destroy itself by scattering over as tiny particles over the Earth's surface. The destruction of the soul happens at the moment when the soul loses its light connection with the Supreme Soul.

The main reason we strive to provide soul liberation to the souls who have lost the connection is to provide light so they can connect with the Supreme Soul. The foundation for the light bridge, which is protected by Lord Shiva, lies beneath the ever burning lamp at the Wisdom Temple. And this light bridge extends from this foundation up to the core world of the Supreme God inside the Sun. And we have ensured that the light bridge is formed this way.

Understand through your knowledge and through your increased realization that it is only the light bridge, which helps you recover your lost connection and knowing this truth get your soul liberated. It is God's will that the light bridge, which cannot be totally constructed by your own soul must pair up and fuse with the light bridge of the Wisdom Temple.

By knowing the great blessings that you have received, and realizing the great philosophical divine discourses that you have received, reach the Supreme Soul also known as God Almighty and let both the souls have a deep inter fusion. And you come back and stay in this Earth and perform your divine service to the Supreme Soul until your body stays alive. Accept the advices given by me as guidance for your inner journey and with an increased realization, wait further until you get soul liberated.

Advice number three, the third pearl of advice from Sage Agathiar

Oh, humans awaiting soul liberation, please accept my third pearl of advice. Time flies by and there is very little time left. Earth has accelerated its rotation. Planets show a change in the normal routine and act differently in the universe. The main reason is a change in age from Kali yuga to Satya yuga.

Kali is completely filled with toxicity. Kali takes different forms to destroy the human souls. Analyze it scientifically. The various diseases and disasters that occur in Earth tends to annihilate the living things. What is the reason? Who's the person called 'Kali purushan' or the evil one? Who's the evil one mentioned in the myths, legends and historical stories? If we think through our mind, we can understand the philosophy. If we start to realize, we can understand the divine school of thought. We explain this to you so you might use your knowledge to understand what is being said. The thing called Kali or Kali purushan is the toxic waste surrounding our soul. Kali is the acidic waste created by the atoms in our brain.

The Earth is as well completely surrounded and filled with toxic waste. That being, it is called Kali yuga, or the age of Kali. Human souls are also greatly affected by the acidic waste. Only if the veils are removed, can the light of the soul spread across our body and remove the ailments in our body. If Kali is the disease, then the toxic waste surrounding our soul is called Kali purushan or the evil one.

Accept your soul liberation by having complete emotional realization. It is the soul covered by the veils, which needs to be liberated. As you remove your veils by practicing the deeksha that you undertook, destroy Kali purushan, the evil one.

Pray with sincere emotion that your soul should travel in the light bridge, cross the edge of space and reach the Supreme One. If you act in a humble emotional state of gratitude, the soul will be liberated easily and you will have a heightened state of realization. Remove your veils through the sound waves of the mantra and await for the most noble journey. As you mature through the advices, higher states will materialize.

Advice number four, the fourth pearl of advice from Sage Agathiar

Oh, human souls awaiting soul liberation. Please heed to my advice and be benefited. Every soul that goes through many births must attain the birth less state. The journey of the soul must reach the starting point where it originated. Since human souls are made from the particles of the God Supreme, who has no beginning and no form, we should try to understand the philosophical basis of the state of God who exists as the Supreme Soul.

Soul liberation is a divine state, attained through realization, and is a self-driven effort. Realization depends on the knowledge gained. Since we are knowledge driven, the mind does not allow us to accept the soul liberation that is offered. Only if the seven veils of ignorance are removed within us, can we understand the importance and significance of the events. Fully understand what is meant by soul liberation. The electrons within the neurons in the brain, also known as knowledge, enclose and cover the soul particles. Only if we get rid of our knowledge, can we realize the wisdom of our soul.

Knowledge is prone to argumentation. Knowledge helps in discerning what is right and what is wrong. If knowledge constantly creates a discourse of arguments within us, it means knowledge is covered by the veils of ignorance, also called acidic waste. The moment when the knowledge within us is purified, it is at that moment, the first wisdom called the light of the soul shines forth. If wisdom dawns upon us, then knowledge stops the argumentative discourse within us.

Know that soul liberation is possible for each and every one. Know that the veils of ignorance can be removed by the grace of higher beings, who come in the form of high pressured electromagnetic energy. Fully understand that knowledge will stop its questioning mode and will start to move in the path of wisdom. It is good, if we understand that this is the last chance provided by the God Supreme at the end times of Kali yuga. Wisdom clearly stands apart from all kinds of argumentative discourses, all arguments and differences of opinion belong to knowledge. Energies that cannot be comprehended by knowledge is called wisdom. Realization alone is wisdom. Realization alone is divinity. By realizing God, get rid of your knowledge, attain higher states of bliss following the wisdom path and get yourself soul liberated. The blessings of the guru and the God Supreme are eternal. If you act through realization, you will reach higher states.

Advice number five, the fifth pearl of advice from Sage Agathiar

I, Agatheesan, provide to you my last advice and kindly accept it. Circumstances for the times we live can change any moment. Human knowledge and the lifestyle based on knowledge keeps changing continuously. External actions alone change as per the age we live. Internal actions never change. It is knowledge alone that increases and decreases. Wisdom is immaculate without a blemish. It never increases or decreases.

Wisdom is the highest truth, soul is the magnificent wisdom. Knowledge increases by oneself and through the help of others. It is a natural thing to increase knowledge with the help of teachers. Wisdom as an energy also exhibits as a natural self-instinct. Wisdom also grows with the help of a guru. The duty of a guru is not to create wisdom or increase wisdom. The duty of a guru is to make us realize about the shining soul particles within our head. If the veils of ignorance are removed, the shining soul particle called wisdom will reveal itself. So the guru, by making us realize the glowing soul within us, helps us to increase our wisdom by our own efforts.

At these end times of Kali yuga, my actions are also based in removing ignorance. By accepting your guru through a form and accepting me Agatheesan through a formless state, realize the form and formless state of God's energy within you, as the vital energy of your soul. By accepting soul liberation, and becoming a seed for the Golden Age, the wisdom of your soul will increase. By crossing over the state of happiness and sorrow, you can live in an unbounded free state of world.

The external world is different and the internal world is different. Land, water and air accept changes in their innate nature. But the fire and sky are immaculate and spotless. They never change their innate nature and express the truth at all times. Similarly, the soul and wisdom are never changing truths. If humans have to realize the wisdom energies of fire, and the immaculate sky, they have to liberate their soul.

Souls who travel along with me to meet the Supreme Soul and return back to live in their body will attain higher states. Just like reincarnation, it will help us realize the other different dimensions. The life filled with struggles will turn into a blooming garden, accept my advices and realize the higher states.

Blessing number one, foremost blessings from Sage Agathiar

Realize the power of my soul transferred to you through these blessings. I will explain what it means to bless someone. It is a universal rule that a human should receive nine blessings during his lifetime. Firstly, through sincere prayers and devotion filled with humble gratitude, a human gains the blessings of the Gods. Souls who lived as humans, and raised in status to the level of Gods have the foremost privilege of providing the first blessings. Know that rishis, sages, siddhars and enlightened people are all Gods.

Following this, the ancestors born in our family genealogy, our parents, our spiritual guru, the teachers who taught us Arts and Science, elders in our family relations, friends who show us the right path have to be thought upon every day, and through humble praises and by uttering words of gratitude, blessings ought to be received. If we thus receive the seven blessings through sincere devotion, then it is possible to receive the blessings of our own soul power. This way, the single atom located in the pineal gland, also called the universal mother, and the soul also called the universal father will provide the blessings willfully.

If your soul has to bless you, then you should be soul liberated. The moment you receive the blessings from your own soul is when you attain complete redemption. If you receive the seven blessings externally through sincere devotion, then you can receive the internal vital energies from the single atom in the pineal gland, and your soul.

The souls waiting to be liberated, have accumulated through the many previous births, the seven external blessings through sincere devotion, and have increased their internal energy up until this moment, and at this juncture wait to be blessed by their own soul. If the beginning and the end meet each other, it is a rule that a circle will be completed. This way, my blessings to the flowers who have completed their cycle of blessings.

Blessings are the electromagnetic fuel to the soul. The vital power of the souls are combined together through electromagnetic threads. I completely combine along with you and provide my blessings. If you hold on firmly and pray, you can receive the 10th blessing from the Supreme Soul. Surrender yourself to the Supreme Soul. My blessings to you.

Blessing number two, second blessings from Sage Agathiar

Oh, flowers waiting to blossom, accept the blessings of Agatheesan. Flowers, which have bloomed alone can be offered to God Supreme. It is because blossomed flowers can alone emit fragrance. The one who gets the 10 blessings alone can be liberated from the cycle of birth and can shine as a star in the sky.

Electromagnetic threads of divine blessings alone must spread across Earth. In contrast, since artificial electromagnetic threads have surrounded the Earth, the intensity of Kali has increased. The soul filled with mercuric space particles has the ability to attract electromagnetic energy and share it with the souls around it. The moment the soul gets the Supreme God's blessings and undergoes soul liberation, it shines as a self-fulfilled soul from that moment. At the end of this Kali yuga, it is only possible by the liberated souls to share the divine energy with the suffering humans.

Oh, souls awaiting soul liberation, I will tell you a good way to get the blessings from the Supreme Soul. As you travel along with me, and reach the Supreme father, and as you are about to reach the height of devotion, which is to get redemption through liberation, remain in a completely void and empty state. Do not pray for any of your external needs. All prayers related to the self, are selfish in nature. If you remain in a void and empty state when your soul is about to completely merge with the Supreme Soul, you can receive immense energy. It is the empty space which has the maximum volume.

If you pray for worldly matters, you would receive minimal blessings from the Supreme father. People who pray for the redemption of the world and for the happy living of beings around them will receive great energy. But if you remain void and empty without any prayers, knowing that the divine blessings of the God Supreme is the best grace one can receive, then you will receive immense energy. By receiving my blessings and the blessings of your guru, as you remain in an empty and void state of mind, reach God Supreme and receive his great blessings. Attain a state of divine bliss, and I bless you to have a great life ahead of you.

Blessing number three, third blessings from Sage Agathiar

Please listen very carefully to my third blessing for the souls waiting to be liberated. Look with an observing eye at the speed of the Wheel of Time. It is the planet mother Earth who controls the Wheel of Time. Observe the increasing speed of the rotatory motion of the planet Earth. Time is determined by the rotation of the Earth. An increase in rotation leads to an increase in gravitational force. As long as human souls live in Earth, they cannot be liberated. The extreme gravitational force of Earth alone imprisons the souls due to the cause and effects of karmic actions. Every soul is deeply intertwined with the gravity of planet Earth.

If you have to travel along with me in the light bridge and reach the Supreme God, you will have to unchain yourself from the strong gravitational force of Earth. Only if the souls traveling in the light bridge, which extends from the core of planet Earth to the core of the Supreme God, get rid of the gravity of Earth can they cross the Karman line or origin of space and ascend further into the cosmos. How to get rid of Earth's gravity and how does one avoid the gravitational force? Realize it is only possible through a humble surrender to Mother Earth. Praise, thank and humbly salute the abode of planet Earth, where you have lived for many ages, through your many rebirths. Pray sincerely, 'Oh, Mother Earth, please do not unleash your gravity upon me when my soul gets liberated.'

It is very important to get the blessings of planet Earth. When your soul travels towards the cosmos to merge with the Supreme Brahman, and if your soul gets attracted and pulled down due to Earth's gravity, all your thoughts will be scattered. The illusory energy of the kali from Earth will keep you in an unrealized state and tries to keep you attracted towards the Earth, thereby obstructing the speedy travel of the souls. But due to the divine powers of the saptarishis, all souls will be pulled upwards and attracted to God Supreme.

If you need to experience your soul liberation event completely and attain a higher state, you will need to gather all your scattered thoughts and concentrate them. The external thoughts of this worldly life will obstruct the travel of your soul. So get rid of your worldly thoughts and function with the pure state of mind just like a pristine crystal clear stream of water. It is Earth's gravitational force, which keeps generating incessantly the thoughts inside your mind. So humbly pray to Mother Earth to redeem you from the gravitational force. Since it is the Earth's gravity which produces the thoughts inside you, through sincere

No: 27, Jeeva Street, Muthirayarpalayam, Pondicherry 605009, INDIA

emotional prayers to Mother Earth, you will reach a thoughtless state of deep serenity within you. It also makes our task easy to lead the souls through attraction.

By accepting this great advice from myself, Agatheesan, get the good blessings from Mother Earth through prayers. As you travel through the light bridge, if the Earth does not attract you through its gravitational force, you will have an increased experiential state. You can completely experience the travel of your soul and the sublime truthful state of the Supreme God. If you reach a thoughtless, empty void state of purity, soul liberation will be totally completed. I bless you, that you may receive the gracious blessings of Mother Earth.

Blessing number four, fourth blessings from Sage Agathiar

Oh, Souls awaiting your salvation through soul liberation, accept my blessings and attain a mature state. The boon of birthlessness is a divine manifestation of breaking one's cycle of birth. It is only through the energy received from the Sun can we get rid of Earth's gravitational force. Though, we can get rid of Earth's gravity through our emotional humility shown to Mother Earth, if we humbly accept the gravity of the Sun, which governs our planet Earth, then the Supreme Soul will attract us using his own powers.

The journey of the soul is a mega event that happens between the planet Earth and the Sun. If this journey has to be completed, the blessings of both the planets are needed. As you pray to Mother Earth, to get you released from its gravitational force, simultaneously, pray to the Sun to attract you with higher gravity towards it. Pray with sincere emotional gratitude to the Supreme God who resides in the abode of the Sun to provide his high magnetic energy and bless the souls through attraction. As you sincerely pray, looking into the rays of the Sun, it becomes easy for you to reach into the core of the Sun and have a complete union with the Supreme Soul and reach a blissful state.

As you live in this planet Earth with the physical body, if you receive the divine blessings of the Supreme God, through your emotional pleading prayer, the vision of the Supreme God is easily attained and Supreme bliss is realized. If you accept my advice and worship the planet Earth and the Sun, your blessings will be multiplied. At the moment, each of your soul gets liberated, you can clearly feel the gravitational force of both the planetary bodies. Earth's gravity extends up until the Karman line or edge of space and crossing the edge of space, the gravity of the Sun will take over the souls through grace. As you realize the difference between Earth's gravity and the gravity of the Sun, you will clearly know the kindness of a mother and the vigorous nature of a father.

The blessing of every soul can provide energy to the other souls. The energies provided by the Supreme mother, Adi Shakti and the Supreme God Easan will help you reach the ocean shores safely. If you want to know the purpose of your birth, and get yourself released from the cycle of birth, and live a high exalted life, receive the blessings from the planet Sun, the abode of the Supreme Soul with the humble state of mind. I congratulate you and bless that your soul attain fulfillment and reach the Supreme God through a high state of realization.

Blessing number five, fifth blessings from Sage Agathiar

My complete blessings to the souls to swiftly participate in the soul liberation event and attain a birth less state in this Kali yuga and be born as a higher order living being in the Satya yuga or the Golden Age. Accept the knowledge that light is created by the atoms. There is no existence without atoms, the universe and the human body functions through atoms. Though not all atoms are particles of God, realize that they are still creations of the Supreme God.

Soul liberation is the liberation of the atoms. Soul is the foremost atom created in the Milky Way. The Supreme God and the human souls are similar to each other. In the expanded cosmos, the collection of atoms called the Supreme Soul creates several other atoms which combine to form the planets in the solar system. The basic energy fuel for the atoms is light and sound.

Light energy is an attractive force containing magnetic energy. Sound energy is composed of high heat energy or electrical energy. When the atoms collide with one another, they produce flashing light and great sound. It is only when the atoms have friction with one another, can the light waves spread out.

The planetary body Sun is created when the atoms collide with one another. So the planets which are formed from the Sun are also created by the frictional force of the atoms. The spread of the light rays has the ability to create other atoms. Every soul was created by the great split of the planet Sun. The souls which were created through the split of atoms must recombine and it is the order of natural law. The atoms which split produces light and extends its gravity in the form of magnetic energy.

For the human soul to get back to the Supreme Soul, the heat energy in the form of sound expresses its operational nature to increase functionality. To fully know about the atoms, we should live in the cosmic abode. Only if the soul gets liberated can we live as a celestial being.

The humans living at the end times of Kali yuga cannot fully realize the happenings of the universe. The great event of soul liberation is to reunite the souls of atoms which were split from the Supreme Brahman and is an event of extraordinary rarity. Your soul atom reached Earth, after being split from the Supreme Soul,

No: 27, Jeeva Street, Muthirayarpalayam, Pondicherry 605009, INDIA

which is nothing but a collection of atoms and now your souls has to be reunited back with the Supreme Soul with the help of the higher beings, and that remains their primary duty.

Splitting an atom with the help of atoms, and combining atoms with the help of atoms are natural philosophies. Receive your soul liberation, through complete acceptance of nature, and realize the two different states of light and sound. It is the mantra sound waves, which has the power to merge the soul of atoms with the light bridge through the sound waves through the mantra deeksha that you took. Append your soul atoms to the light bridge, the divine path filled with light and be fulfilled reaching the Supreme Brahman.

Your souls, which reached Earth having separated from the Supreme Soul, are carried back and submitted to the Supreme Soul, through the light bridge formed by your guru at the Wisdom Temple. Praise and worship the light bridge, which blesses you in your journey towards enlightenment, in your journey towards the light.

Receive your blessings through humble praise of the light bridge, which was formed from the light of the atoms. Since your unique self-built light bridge cannot be fully completed, unite with the light bridge at the Wisdom Temple through emotional surrender, which carries you to the central abode of the Supreme God. It is the light bridge which greatly aids in the union with the Supreme God. I congratulate you that by accepting this final blessing from me, guide the souls in this sacred part, receive the highest soul liberation, be remembered till the end of times, increase your potentials and through sharing, live happily.
