

**Om Eshwaraya Namaha!**

**Message from the Great Sage Agasthiyar addressed to athmas selected for Soul Liberation for Circle 9 – Translation**

**My humble salutations to my Guru Lord Arumuganar.**

**What is Soul Liberation?**

The constant friction between the mercuric space molecules within the soul atom results in Acidic Toxic Veils (ATV) and releasing the soul from this prison of veils through the graceful submission of the soul to God Almighty is called 'Soul Liberation'. How do we remove the toxic waste inside our head?

With the help of divinity, and the four divine mineral molecules, which are attracted in the form of high electro-magnetic strands and applying them on the veils to melt them down, results in the removal of waste. It might look as an easy process to attract the divine electromagnetic energy. It is not possible to do this with mere knowledge. The fuel for the soul within the head of each person depends on the ability of the soul to attract energy fields.

The 'Outer Nest Shell Layer' (ONSL) of the soul atom which imprisons the soul, can only be removed through excess electromagnetic energy. To have an increased strength in the soul energy, which exists in the form of electromagnetic waves, the help of higher divine beings is needed. When we sincerely pray and emotionally connect in a molten state of unison, high electromagnetic energy can be received. It is important to realize that, being the end of kaliyuga and the high toxicity surrounding us, higher divinities are not able to reach inside our head. Then how is it possible to receive the great electromagnetic waves. Think about it.

The person who can perform this task is called the 'Guru' and by seeking the Guru's blessings, one can receive greater divine energies very easily. The Guru is always One. The Guru is a human form of the many Gods who can perform this task. There are many gurus who live at the end of this kaliyuga. It is possible to seek the help of the many gurus, who only consume spiritual food and it is through them we can get high electromagnetic energy and remove the veils within us. But at these end times of kaliyuga, the time duration is very short and very hard penance and practice is needed to liberate one's soul in order to attain redemption.

Complete removal of the toxic veils and the opening of the skull in the sahashara or top of our head to liberate our soul has become a very rare occurrence. Since its kaliyuga, despite removal of toxic waste, there is a constant recurrence of the waste. One can find the solution, if one starts to contemplate, if hard practice and efforts can liberate one's soul ?.

The speedy rotation and revolution of the earth at this kaliyuga makes humans act very fast without a break. They also accept that soul liberation can be attained swiftly. The human mind ,which expands and contracts, plants a very strong seed of thought that everything should be attained easily. The Higher beings function with the only intention that the Golden Age should begin soon; that the planet earth should get rid of its toxicity and the human souls, which are sub particles from the God particle should be protected from destruction.

The Light beings who are the shining stars in the sky are fully utilizing all their skills that they acquired through the many aeons in this kaliyuga. In the beginning of every Golden Age or Satyayuga, a 'Soul' would be selected and the Higher beings would create a strong wave of 'thought energy' inside that soul to help mankind during the end of kaliyuga and in the transition towards the blossoming of the Golden Age.

This is how a soul is selected during every four period cycle. A Soul born in the Golden Age, who was my disciple, accepted this great divine task of continuing (his/her) cycle

of birth until the end of kaliyuga and would finally help in the selection of souls as 'Seeds' for the Golden Age. It is such as soul, who is serving as the Guru in the wisdom temple as my daughter. To become a seed for the Golden Age, it is not possible to completely liberate oneself and not possible to completely remove all the seven veils. But only one part of the veils can be removed and a little opening in the skull is enough for liberating the soul. Only through this way, a soul can return back into the head and continue life in the body as a human being. The 'circle of souls', who are selected as seeds for the Satyayuga or Golden Age are liberated only through this way.

The souls who are blessed by the Guru in the Wisdom temple and remove their veils to a little extent are 'Soul liberated' and henceforth after soul liberation through constant practice and by the blessings of the Guru, the souls should strive to completely remove all their veils. It is an ideal practice to note that, when it is hard to completely remove all the veils, then by attaining Soul liberation first and then slowly removing the remaining veils would be the right way. But to perform this task, it is only beneficial by reaching out to the 'Chosen Guru'. The Souls who attain Soul Liberation first and henceforth receive High electromagnetic waves through constant endeavour, will finally realize the complete soul liberation.

Such souls also see the vision of their own soul inside them. They become a 'Light Body' to shine as a star in the sky and would help in the service of God Almighty. They will get complete Bliss and feel a strong sense of unity and feel the oneness of nature and God. They would live in a state of 'Ultimate Truth' and realize the omnipresence of God Almighty and can feel his magnificent form. To have a union with the Paramatma or God Almighty, get 'Soul liberated'. Let Light shine forth in the fruition of the coming months. My Blessings!!!
